NEWS RELEASE

June 6, 2006

## Tinka Stakes Sachabamba Copper Project in Peru

**Vancouver, Canada** - Tinka Resources Limited (TSXv-TK; Frankfurt-TLD; Pinksheets-TKRFF) (the “Company”).

Mr. Andrew Carter, President, is pleased to announce the acquisition, through staking, of six claims totaling 5,500 hectares in the porphyry copper belt near the coastline of southwestern Peru. The properties are situated in the province of Laramate within the department of Ayacucho and are located approximately 35 km southeast of the Company’s Tibillos properties (see press release December 5, 2005).

A recently completed reconnaissance survey by the Company’s field crews has identified copper oxide mineralization in an intrusive setting which has characteristics of a porphyry copper environment. Select rock samples yielded values from trace amounts to 1.8% copper.

The Company will mobilize a field crew soon to systematically map and sample the surface area of the mineralized intrusion.

The Company’s Qualified Person, John Nebocat, P.Eng., has verified the contents of this news release.

On behalf of the Board,

“**Andrew Carter**”

Andrew Carter, President & CEO
